

Product	Park Agility Wheel Stop (with WIC Board and LiDAR Sensor)	
Document Version	1.3	
Pictures	Complete Solution	
		
	WIC Board	LiDAR Sensor
		
Physical		
Housing	Polypropylene – PostPrime Plastic™ – Complies with AS2890.1:2004	
Dimensions	1690mm L x 177mm W x 100mm H	
Weight	13kg	
IP Rating	65	
Operating Temperature	-20°C to +60°C	
Certification	All electronic components CE compliant	
Power		
Voltage	16V DC up to 48V DC	
Usage	0.5W	
Outage	All settings are restored after power outage	
Operation		
Vehicle Detection Method	LiDAR (Light Detection and Ranging)	
Communication	RS485	
Firmware		
Features	Overstay	Overstay configurable in 1min intervals (alert in management system)
	State change delay	Configurable vacant ↔ occupied state change delay
	Other	Based on customer specifications
Version	1.5
